

Project 03

HELP BETHANY PLAN HER VISIT TO LONDON

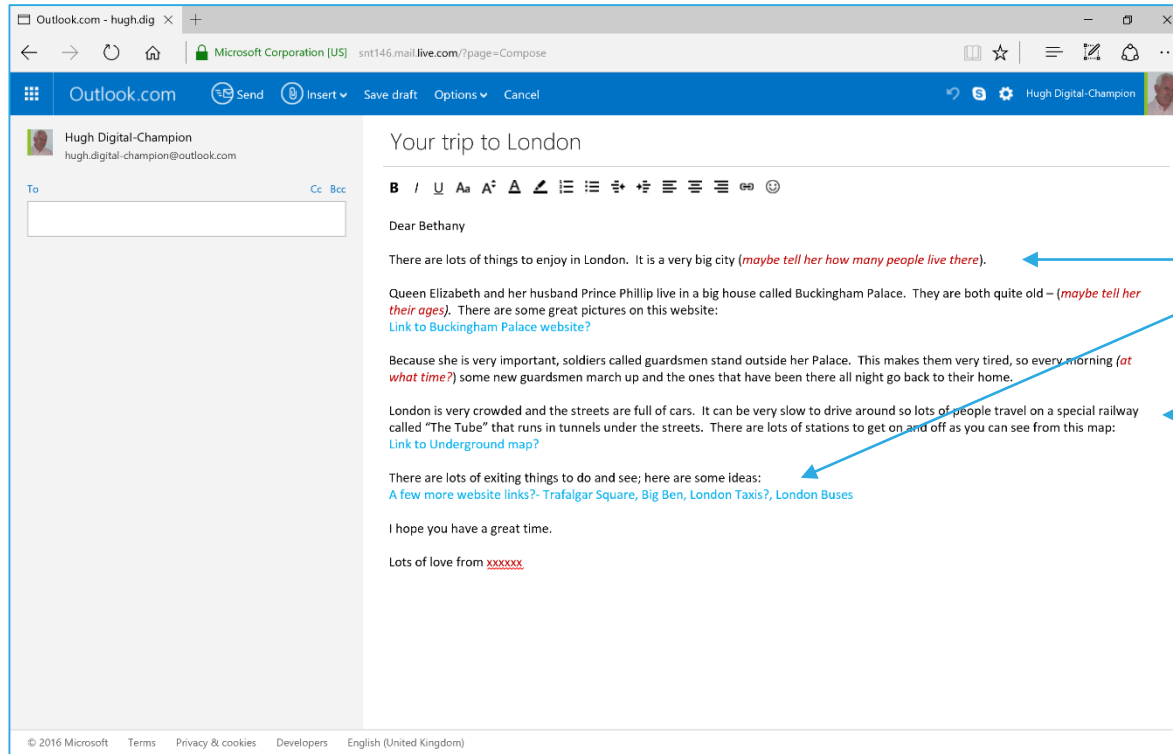

The challenge

- Bethany (5½ years old) loves to do exciting things with her (Grand)Ma and (Grand)Pa
- Last year, she went on a plane for the first time when they visited Edinburgh for the day
- In May, she will visit London with Ma and Pa - and make her first trip by train
- She hopes to see the Changing of the Guard at the Queen's Palace
- She doesn't really know what to expect in London nor what else to see or do
- Can you do some research and tell her (by e-mail of course), some interesting facts and suggest other places she might want to visit?
- Don't forget to include some links to useful websites so that Bethany can check them out before her trip!

The approach

- Get at least two browser tabs open:
 - Outlook.com for the mail
 - One or more for websites
- Draft out the structure of the mail first – intro & close and save a draft
- As you find interesting things on your website research (browsing) update the e-mail, remembering to save the draft
- Use the copy and paste approach to add text and links to the mail
- Finally, tidy it up, add the recipient and send it off

GOOD LUCK!
